

HOMETIME DOORS

Make a Statement

BUILD YOUR DREAM DOOR WITH HOMETIME

Time for an Upgrade

OLD AND OUTDATED

Is your home setting the right impression when you greet your guests? It's time to welcome people with a warm entrance that tells the right story.

FALLING APART

Your door has probably seen better days. Between peeling paint, warping and swelling, you need something that is built to last.

HARD TO OPERATE

Builder grade hinges, a deteriorating door frame, and a damaged threshold probably mean your door is loud, rubbing or hard to operate.

HOT AND DRAFTY

Wood doors are poor insulators and outdated weather stripping struggles to keep the outside elements out leading to hot and cold spots around your home and unnecessary energy costs.

We know you want a door you can be proud of and we are excited to help you create the entry door of your dreams.

Your Solution

THE PERFECT FIT

First impressions are everything, and that all begins with your doors. Our professionally installed fiberglass entry doors are going to be the perfect fit for your home.

BUILT TO LAST

Fiberglass entry doors offer superior durability as well as low maintenance. They won't warp, shrink, or swell like wood doors and won't rust or dent like metal doors.

A COMPLETE SOLUTION

Get a full refresh including replacement of the existing door frame, door slabs, hinges, thresholds and interior and exterior moldings.

MAXIMIZE CURB APPEAL

Add Beauty and Value to your home with a wide range of style choices to fit every taste.

ENERGY EFFICIENT

Insulated fiberglass doors with high quality weather stripping keep the comfort in better than their wood alternatives.

Building Your Dream Door

STEP 1

Measure

In order to find the right door for you, we'll first need to know what the size of your current entry door is. Measure the width and height of your current door. Don't worry about including the frame, just measure the door slab. You'll see that the sizes listed in our catalog are notated as Feet^{Inches}. For example: 36" = 3⁰

STEP 2

Choose a Style

Next, select a category on pages 6-7 to find the right style of door that interests you most. Whether you are going for a particular look or are wanting your door to have a specific amount of glass, you are sure to find a few options that you love. Be sure to notate which door slabs and glass options you are interested in.

STEP 3

Choose a Finish

Once you've found the door you are interested in, then you can choose one of the available textures (listed below each door) with the help of the Texture Options on page 28. Then choose a stain or paint color to complete the look, page 29.

STEP 4

Your Hardware

Lastly, add the finishing touches by selecting an interior and exterior hardware set in your preferred metal finish, pages 32-33.

TEXTURE OPTIONS

CHOOSE A WOOD TEXTURE

Fiberglass doors offer a unique pairing of energy efficiency and durability while giving you the option of preserving a wood look. Our doors come in four textures—oak, fir, mahogany, and smooth. After choosing a texture, then choose a paint or stain. **Any texture option can be combined with any color option.**

Oak Grain Texture

Peace of Mind Every Time

WE'RE THERE EVERY STEP OF THE WAY

Outdated entry doors can be ugly, inefficient, and bring down the curb appeal (value) of your home. You know it's time to upgrade the entry to your home but you're worried that the process will be stressful or that you'll be unhappy with the end result. We believe you deserve to work with an honest company that makes the process easy, enjoyable and guarantees your satisfaction each step of the way. As you are looking to refresh your home with a new entry door, we are confident that our wide variety of glass styles, door options, colors, and textures ensure that you will find the entry door of your dreams.

CRAFTED BY EXPERTS, BACKED BY VALUES

Hometime is family-owned and operated, and all of our installers are in-house employees, not subcontractors. We believe that thriving employees create raving fans so all of our installers earn above industry standard wages and benefits and The Hometime Window Family Fund supports our installers and their apprentices with down payment assistance to purchase a home.

Our customers benefit from in-house installation from motivated and experienced installers who care about the end product as much as the homeowner themselves. Thanks to the quality of their work, you're sure to find your installer mentioned by name in numerous customer reviews.

Over 3,000 5-Star Reviews

“Mario and Danny worked VERY fast when they arrived...and even went out of their way to tell our toddler when their tools would be loud. They were so nice and they spent an extra half hour really inspecting the door and making sure it was absolutely perfect before leaving. We love the door, and we finally feel like our home looks the way we’ve always wanted it to! Could not recommend this company more” — Ashley C.

“Just got a new door from Hometime. Worked with Nina the sales rep and Rob the installer. Both are very professional...Rob and his assistant showed up on time. Their work is perfect, I can’t find anything to complain about.” — Donald Y.

“They are very thorough in walking you through the steps, there are videos to watch that help you understand the process and they just make it really easy... The installer who came out was super nice, respectful, and clean, and he just did an amazing job installing my door thank you very much for making me happy.” — Jennie K.
